- Support: S2; \$2.75      S1; \$3.20      Resistance:      R1;  
\$3.50      R2; \$4.00

## About NEXE Innovations Inc.

NEXE Innovations Inc. is a leader in plant-based compostable technology and advanced materials manufacturing based in British Columbia, Canada. The company has developed one of the only patented, fully compostable, plant-based, single-serve coffee pods for use in leading single-serve coffee machines. The proprietary NEXE pod is designed to reduce the significant environmental impact caused by single-serve pods, >40 billion of which are discarded every year. With over \$35M raised to date from equity and government funding and over five years of R&D, NEXE is well-positioned to meet the growing demand for environmentally friendly and sustainable products in the single-serve coffee sector and beyond.

- New listing with only 65 million shares outstanding
- NEXE had a great start ... traded over 6.0 million shares over the last five session

- Support: S2; \$ 1.60      S1; \$1.80      Resistance: R1; \$1.95      R2; \$2.10

## About NEXE Innovations Inc.

NEXE Innovations Inc. is a well financed, British Columbia - based advanced materials company which has developed a fully compostable (plant-based) single-serve coffee pod for use in Keurig Brewing Systems. The Company purchased its facility in Surrey, British Columbia in 2016. In addition, the Company has developed custom automation through its European and Canadian partners enabling the Company to commercialize its proprietary capsules. The Company believes that the NEXE POD can eventually eradicate the waste created by single serve capsules. The Company's goal is to attract and sustain a significant portion of the single serve market, as there is a growing demand for environmentally friendly and sustainable products.
