

Dr. Jonathan Hykawy of Stormcrow Capital on initiating research coverage of Ucore Rare Metals

In this InvestorIntel interview with host Tracy Weslosky, Stormcrow Capital Ltd.'s President and Director Dr. Jonathan Hykawy talks about his Equity Research Report on Ucore Rare Metals Inc. (TSXV: UCU | OTCQX: UURAF).

In the interview, which can also be viewed in full on the InvestorIntel YouTube channel ([click here](#)), Dr. Hykawy discusses Ucore Rare Metals' use of the RapidSX™ REE separation technology to produce rare earths with “a very significant reduction in capital costs” and a faster throughput in a smaller plant, while relying on the same chemicals and the same sort of technology as conventional SX. Dr. Hykawy goes on to say that the RapidSX™ REE separation technology has passed the scrutiny of third-party examiners engaged to look at the technology for outside investors, who estimated it as three times as efficient as conventional SX.

Dr. Hykawy goes to to discuss some of the other competitive advantages Ucore Rare Metals offers investors, including support from the Alaskan government and the current “pragmatic and dedicated” management team, including CEO Pat Ryan.

About Stormcrow Capital Ltd.

Stormcrow Capital Ltd. is an Exempt Market Dealer registered with the Ontario Securities Commission and the Autorité

desmarchés financiers (Quebec). Stormcrow has both issuer and investor clients. Stormcrow is also a financial and technical/scientific consultant that provides certain of its clients with some or all of the following services: (i) an assessment of the client's industry, business plans and operations, market positioning, economic situation and prospects; (ii) certain technical and scientific commentary, analysis and advice that is within the expertise of Stormcrow's staff; (iii) advice regarding optimization strategies for the client's business and capital structure; (iv) due diligence investigation services; and (v) opinions regarding the future expected value of the client's or a offeror/offeree's equity securities so as to allow the client to then make capital market, capital budgeting and capital structure plans. With the consent of Stormcrow's issuer client, the client and/or its industry sector may be the subject of an investment or financial research report, newsletter, bulletin or other publication by Stormcrow where such publication is made publicly available at www.stormcrow.ca or elsewhere or is otherwise distributed by Stormcrow. Any such publication is limited to generic, non-tailored advice or opinions and should not be construed as investment advice that is suitable for the reader or recipient. Stormcrow does not offer personalized or tailored investment advice to anyone (other than its current investor clients) and Stormcrow's research reports should not be relied upon by anyone in making any investment decisions. Rather, investors should speak in person with their personal financial advisor(s) to obtain suitable investment advice.

About Ucore Rare Metals Inc.

Ucore is focused on rare- and critical-metals resources, extraction, beneficiation, and separation technologies with the potential for production, growth, and scalability. Ucore has an effective 100% ownership stake in the Bokan-Dotson

Ridge Rare Earth Element Project in Southeast Alaska, USA. Ucore's vision and plan is to become a leading advanced technology company, providing best-in-class metal separation products and services to the mining and mineral extraction industry.

Through strategic partnerships, Ucore's vision includes disrupting the People's Republic of China's control of the US REE supply chain through the near-term development of a heavy and light rare-earth processing facility – the Alaska Strategic Metals Complex in Southeast Alaska and the long-term development of Ucore's heavy-rare-earth-element mineral-resource property located at Bokan Mountain on Prince of Wales Island, Alaska.
