

Jamie Tuer of Fjordland Provides Updates on its South Voisey's Bay Deal and Graphite Prospects

written by InvestorNews | May 2, 2023

In this InvestorIntel interview, Tracy Weslosky talks with [Fjordland Exploration Inc.](#)'s (TSXV: FEX) CEO, President, and Director Jamie Tuer about the opportunity for it to focus on its [South Voisey's Bay \(SVB\) nickel project](#) in Labrador now that Ivanhoe Electric (TSX: IE | NYSE American: IE) has dropped its investment agreement.

The SVB project has had \$30 to \$40 million invested in it over the years and, with nickel in high demand for the batteries in electric vehicles (EVs), Jamie explains how this could be an opportunity for Fjordland to attract a partner that is interested in developing nickel, which he said is "hot right now."

Jamie also discusses the [potential for graphite](#) at their Renzy Nickel Copper project in Quebec. Fjordland has sent some previous drill core sample to SGS Canada's lab in Lakefield, Ontario for analysis. He mentions the high-quality nature of the graphite mineralization and that it could be suitable for use in lithium-ion batteries for EVs.

About Fjordland Exploration Inc.

Fjordland Exploration Inc. is a mineral exploration company that is focused on the discovery of large-scale economic metal deposits in Canada.

In collaboration with Commander Resources Ltd., Fjordland is exploring the SVB "Pants Lake Intrusive" target which is in a geologic setting analogous to the nearby nickel-cobalt-copper Voisey's Bay deposit. Fjordland has earned a 75% interest in the project.

Fjordland also owns a 100% interest in the Renzy nickel project located near Maniwaki, Quebec. The project encompasses the former Renzy Mine where, during the period from 1969 to 1972, 716,000 short tons were mined with average grades of 0.70% nickel and 0.72% copper. Fjordland has staked additional claims to increase the size of the project to 530 sq. km.

As well, Fjordland has two copper-gold properties in the Quesnel Trough of central British Columbia, The West Milligan copper-gold project is a joint venture with Northwest Copper Corp. located within 4 km of Centerra's Mount Milligan copper-gold mine. The 103 sq. km. Witch copper-gold project is located another 35 km west of the Milligan mine.
