

Tom Meredith with Mario Drolet on Gold and West Red Lake Gold Mines

In a recent InvestorIntel interview, Mario Drolet speaks with Tom Meredith, Executive Chairman of West Red Lake Gold Mines Inc. (CSE: RLG | OTCQB: RLGMF) about the significant exploration potential of West Red Lake Gold's property in the Red Lake Gold District which hosts some of the richest gold deposits in the world.

In this InvestorIntel interview, which may also be viewed on YouTube (click here to subscribe to the InvestorIntel Channel), Mario started, "The best place to find a new mine is to look around past-producing mines." Tom went on to say that their 3100 hectares West Red Lake property hosts three former gold mines and is located 10km west of the famous Red Lake Mine Complex of Evolution Mining. Tom comments that on this property, the central positioned Rowan Mine "currently has a resource of 1.1 million ounces of 7.5 grams per ton between surface and about 500 meters deep. And over a length of about 1.2 kilometers, so – we have an exploration potential to make that bigger by going deeper, below 500 meters deep."

About West Red Lake Gold Mines

West Red Lake Gold Mines is a Toronto-based minerals exploration company focused on gold exploration and development in the prolific Red Lake Gold District of Northwest Ontario, Canada. The Red Lake Gold District is host to some of the richest gold deposits in the world and has produced 30 million ounces of gold from high grade zones. The Company has assembled a significant property position totalling 3,100 hectares in west Red Lake (the "West Red Lake

Project”) which contains three former gold mines located 15 km west of the Red Lake mine complex. The Mount Jamie Mine and Red Summit Mine properties are 100% owned by the Company and the Rowan Mine property is held in a 66%/34% joint venture with Evolution Mining Limited. The West Red Lake Project property covers a 12 km strike length along the Pipestone Bay St Paul Deformation Zone and the Company plans to continue to explore the property both along strike and to depth during 2021.
