*Renowned silver guru David Morgan to provide investors with dynamic list of silver market leaders*

Toronto, September 11, 2020 – **InvestorIntel.com**, a leading online source of investor information, is pleased to announce its new InvestorChannel Silver Watchlist in collaboration with silver specialist David Morgan of The Morgan Report.

“Investor interest in silver has never been higher,” said Tracy Weslosky, founder of InvestorIntel.com and co-founder of InvestorChannel.com. “At the moment, silver has a far higher potential upside and growth potential than gold. What has been missing is a dynamically updated guide to the major silver companies accessible to the average or even sophisticated investor. I am delighted to bring our viewers the expertise and depth of understanding that David Morgan brings to investors.”

David Morgan’s **TheMorganReport.com** has long been the go-to resource for silver investors. With Morgan’s insight into the changing silver markets, The InvestorChannel Silver Watchlist will be dynamic and follow market changes. It will include the majors representing the top tier but will also include others that may not have the majority of their revenue from silver but produce a significant amount of silver. Also represented will be silver companies chosen based on other investment factors such as popularity or volume of shares traded.

“Silver is the best performing commodity to date and is still undervalued,” said David Morgan, “which means an opportunity to participate remains. Investors can use the list to begin their investigations. Large moves on large volumes in any sector usually warrant further study.”

The InvestorChannel Silver Watchlist is presented in video format and is available online without a subscription through YouTube featuring:

- Daily Spot Price for Silver
- The Top 5 Silver Performers of the Day
- The Top 22 Silver Companies ranked by daily stock performance

“Within weeks of being launched The InvestorChannel Silver Watchlist has already become the top search result for investors looking for a daily silver investment resource,” said Tracy Weslosky. “There clearly is a need among investors for clear and current information about the movers and major players in the silver market.”

The InvestorChannel Silver Watchlist may be accessed via the InvestorChannel YouTube account at InvestorChannel.com or on InvestorIntel.com, where the data driven watchlists feeds are featured at market close daily.

## **David Morgan on why the gold and silver ride is not over yet**

InvestorIntel's Tracy Weslosky asks David Morgan, Founder & Owner of The Morgan Report, if it is too late to invest in the gold and silver market. "From my work and many others we are in the last leg of this major move." David said. "The greatest price appreciation takes place in the last leg, but the last leg is usually short in duration. 90% of the move comes in the last 10% of the time."

"We are in a monetary conundrum," David told Tracy. "We are printing our way out of a mess that can't be printed out of. So, the metals are going to react to that in a very significant way, probably in a very short duration. Juniors are the last to participate in any cycle," David added. "I think there is so much pressure in the precious metals right

now, juniors may participate a little earlier than they normally do.”

Last month InvestorIntel announced its partnership with **InvestorChannel.com**, a data-driven fintech company that is focused on using the latest in artificial intelligence (AI) and other analytics technologies to develop a platform that produces timely insights into companies and industries listed on the capital markets. InvestorChannel publishes a daily Silver Stocks Watchlist Update video which includes the Top 5 Performers of the Day and a performance review of the companies InvestorChannel is following in the sector, carefully selected by silver expert David Morgan of The Morgan Report.
