Top 3 best valued lithium juniors, as lithium prices near a bottom

written by InvestorNews | December 13, 2023

Following an incredible 2022, the lithium sector has had a horrible 2023; however soon the pain should be over. The China lithium carbonate spot price is down 82.5% in the past year and is now below the marginal cost of production, meaning the lithium price fall should end very soon. This assumes the marginal cost producers continue to stop production and that EV sales continue to grow in 2024.
