

Tom Drivas on Romios Gold's well positioned gold, copper and silver projects in North America

written by InvestorNews | November 25, 2020

In a recent InvestorIntel interview, Tracy Weslosky speaks with Tom Drivas, President, CEO and Director of [Romios Gold Resources Inc.](#) (TSXV: RG) on the M&A formula utilized by Romios targeting gold-copper-silver acquisitions across North America. In this interview Tom highlights a series of projects including four historic silver prospects in the Thunder Bay Camp in Ontario. They also discuss the gold-copper porphyry exploration potential of Romios in British Columbia's Golden Triangle and the resumption of exploration at Romios Gold's bonanza-grade Scossa Gold Mine Property in Nevada.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), Tom said, "The Thunder Bay Project has produced quite a bit of silver in the past. There are a number of mines that have produced silver and one of them was actually the highest producer in the world at the time." He added that Romios has acquired a number of properties around those mines.

Tom also provided an update on the recently undertaken exploration program on the Company's Scossa bonanza-grade gold mine property in Nevada, USA. He said that the Scossa mine produced gold in the 1930s and produced bonanza-grade ores thought to have graded **1,200 oz/t gold**. He added that the ore from the property was so rich that it was stored in a bank vault. He also said that Romios is concentrated on gold, copper

and silver and “...for the last 10 years has acquired a large package of properties in the Golden Triangle.”
