

Alex Tapscott on the impact of PayPal accepting payment through Bitcoin and cryptocurrencies

In a recent InvestorIntel interview, Tracy Weslosky spoke with Alex Tapscott, Managing Director of the Digital Asset Group at Ninepoint Partners LP about his critically acclaimed best-seller, Blockchain Revolution, and PayPal's new "Checkout with Crypto" service that enables users to use Bitcoin to pay for goods and services.

Mr. Tapscott is the co-author of Blockchain Revolution, which has been translated into more than 15 languages and has sold more than 500,000 copies worldwide. In 2017, he co-founded the Blockchain Research Institute (BRI), a global think-tank investigating blockchain strategies, opportunities, and use-cases. In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), Mr. Tapscott went on to say, "it is a big leap forward for Bitcoin...I think PayPal is probably not going to be the last company that takes a step in this direction."

In the interview, Mr. Tapscott suggested what people can do to feel more comfortable about cryptocurrencies and understand how Bitcoin has set off a spark that has captured a lot of people imaginations and today is worth over a trillion dollars and "is benefitting more than gold in this environment where inflation expectation is high."

West Red Lake Gold's Tom Meredith Provides Update on the Rowan Mine Property Drilling Program

In a recent InvestorIntel interview, Tracy Weslosky spoke with Tom Meredith, Executive Chairman of West Red Lake Gold Mines Inc. (CSE: RLG | OTCQB: RLGMF) about their ongoing drilling at the West Red Lake Gold Project which has four gold deposits three of which are former producing mines. The project is in the Red Lake Gold District, one of Canada's most prolific mining districts.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), Tom went on to say that their main historic mine is the Rowan Mine where the company has a million ounces of gold with grade of over 7.5 grams per ton. The Company is currently drilling a series of 16 shallow holes to target gold mineralization from surface down to the first level of the Rowan Mine. Tom highlighted that the West Red Lake Gold project has similar grades to some of the successful gold mines in the area. West Red Lake Gold Mines has a joint venture on the Rowan Mine property with Evolution Mining, a

leading, growth-focused Australian gold miner.

About West Red Lake Gold Mines

West Red Lake Gold Mines is a Toronto-based minerals exploration company focused on gold exploration and development in the prolific Red Lake Gold District of Northwest Ontario, Canada. The Red Lake Gold District is host to some of the richest gold deposits in the world and has produced 30 million ounces of gold from high grade zones. The Company has assembled a significant property position totalling 3,100 hectares in west Red Lake (the “West Red Lake Project”) which contains three former gold mines located 15 km west of the Red Lake mine complex. The Mount Jamie Mine and Red Summit Mine properties are 100% owned by the Company and the Rowan Mine property is held in a 64%/36% joint venture with Evolution Mining Limited. The West Red Lake Project property covers a 12 km strike length along the Pipestone Bay St Paul Deformation Zone and the Company plans to continue to explore the property both along strike and to depth during 2021.

Kris Krane on Biden's impact on the nationwide decriminalization of cannabis

In the latest InvestorIntel interview, Tracy Weslosky speaks with Kris Krane, President of 4Front Ventures Corp. (CSE: FFNT | OTCQX: FFNTF) about the company's success in getting to a \$1B market value in the cannabis business.

This InvestorIntel interview, which may also be viewed on YouTube (click here to subscribe to the InvestorIntel Channel), has Kris describing how advocacy, professionalism and low-cost production at scale are the keys to make 4Front a success as they compete with other multi-state operators. With the announcement that New York is joining the ranks of legal, adult-use cannabis states and the anticipation that there could be 2-4 more states legalizing before year-end, it is imperative that a successful enterprise be ready for the evolution of the competition which leads to downward price compression. With a strong advocacy background, Kris is on the leading edge of Government policy and has some interesting, if not controversial, views on who's leading the charge for safe banking legislation and nationwide decriminalization.

About eResearch Corporation

eResearch, which was founded in 2000, is a respected source for institutional-quality, equity research focused primarily on small- and mid-cap companies. Their focus is on identifying companies that have interesting prospects, sound management, and significant potential for share price appreciation. They

also provide research reports on middle and larger-sized companies, using a combination of fundamental and technical analysis. They complement their corporate research coverage with a diversified selection of informative, insightful, and thought-provoking research publications from a wide variety of investment professionals.

Tony Sklar on Ideanomics investment in leading high-performance electric motorcycle company, Energica

In a recent InvestorIntel interview, Tracy Weslosky spoke with Tony Sklar, Senior VP, Communications of Ideanomics, Inc. (NASDAQ: IDEX) about their investment in Energica Motor Company S.p.A., a leading Italian manufacturer of high-performance electric motorcycles and the sole manufacturer of the FIM Enel MotoE™ World Cup.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), Tony went on to say that Energica is one of the few European players to own their own battery technology and explained that its proprietary EV battery and DC fast-charging systems have applications and synergies with Ideanomics Mobility creating value for Ideanomics shareholders.

In the interview, Tony spoke on the two business divisions of Ideanomics – Ideanomics Mobility and Ideanomics Capital. With Ideanomics Mobility the company focuses on the commercialization of electric vehicles. Ideanomics has a sales

to financing to charging model. Drawing a parallel with the auto and energy industry, he said as the energy companies that have given value to shareholders for the longest period of time, Ideanomics' charging solutions is going to have the most impact for its investors.

To watch the full interview, [click here](#)

About Ideanomics

Ideanomics is a global company focused on the convergence of financial services and industries experiencing technological disruption. Our Ideanomics Mobility division is a service provider which facilitates the adoption of electric vehicles by commercial fleet operators through offering vehicle procurement, finance and leasing, and energy management solutions under our innovative sales to financing to charging (S2F2C) business model. Ideanomics Capital is focused on disruptive fintech solutions for the financial services industry. Together, Ideanomics Mobility and Ideanomics Capital provide our global customers and partners with leading technologies and services designed to improve transparency, efficiency, and accountability, and our shareholders with the opportunity to participate in high-potential, growth industries.

Neo Lithium's Gabriel Pindar on the rising demand for lithium in electric vehicles

In a recent InvestorIntel interview, Tracy Weslosky spoke with Gabriel Pindar, COO and Director of Neo Lithium Corp. (TSXV: NLC | OTCQX: NTTHF) about their recent news release about CATL increasing its investment in Neo Lithium.

CATL is one of the largest battery manufacturers for electric vehicles in the world which made a strategic investment in Neo Lithium in September last year. In this InvestorIntel interview, which may also be viewed on YouTube (click here to subscribe to the InvestorIntel Channel), Gabriel went on to say that CATL is expanding its plants globally and “for every one of those plants they will need more materials. That is why they are talking to us about lithium.”

Neo Lithium was recently named to the 2021 OTCQX® Best 50. Speaking on the competitive advantages of Neo Lithium's 3Q Project, Gabriel said that it is a high-grade lithium brine project which is “one of the lowest impurity projects in the market” which allows for efficient lithium carbonate production.

To watch the full interview, click here

About Neo Lithium Corp.

Neo Lithium Corp. has quickly become a prominent new name in lithium brine development by virtue of its high quality 3Q Project and experienced team. Neo Lithium is rapidly advancing its 100% owned 3Q Project – a unique high-grade lithium brine lake and salar complex in Latin America's “Lithium Triangle”.

The 3Q Project is located in Catamarca Province, the largest

lithium producing area in Argentina covering approximately 35,000 ha including a salar complex of approximately 16,000 ha.

Chalmers and Karayannopoulos on the production initiative designed to strengthen the US/EUR rare earths supply chain

In a recent InvestorIntel interview, Tracy Weslosky speaks with Mark Chalmers, President and CEO of Energy Fuels Inc. (NYSE American: UUUU | TSX: EFR) and Constantine Karayannopoulos, President, CEO and Director of Neo Performance Materials Inc. (TSX: NEO), about their new rare earth production initiative to strengthen and diversify U.S. and European rare earths supply chains.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here](#) to subscribe to the InvestorIntel Channel), Constantine went on to say that monazite is the perfect raw material for the industry because of its excellent distribution of magnetic rare earths – neodymium and praseodymium. “Energy Fuels is the missing link to solving the monazite problem,” he added. Speaking on the joint venture

with Energy Fuels, Constantine commented that it “is going to be a major contributor to the overall supply of rare earths globally.” Mark adding, “We are confident that we can be cost-competitive with the world.”

To watch the full interview, [click here](#).

About Neo Performance Materials Inc.

Neo manufactures the building blocks of many modern technologies that enhance efficiency and sustainability. Neo’s advanced industrial materials – magnetic powders and magnets, specialty chemicals, metals, and alloys – are critical to the performance of many everyday products and emerging technologies. Neo’s products help to deliver the technologies of tomorrow to consumers today. The business of Neo is organized along three segments: Magnequench, Chemicals & Oxides and Rare Metals. Neo is headquartered in Toronto, Ontario, Canada; with corporate offices in Greenwood Village, Colorado, US; Singapore; and Beijing, China. Neo operates globally with sales and production across 10 countries, being Japan, China, Thailand, Estonia, Singapore, Germany, United Kingdom, Canada, United States, and South Korea.

About Energy Fuels Inc.

Energy Fuels is a leading U.S.-based uranium mining company, supplying U_3O_8 to major nuclear utilities. Energy Fuels also produces vanadium from certain of its projects, as market conditions warrant, and expects to commence commercial production of REE carbonate in 2021. Its corporate offices are in Lakewood, Colorado, near Denver, and all of its assets and employees are in the United States. Energy Fuels holds three of America’s key uranium production centers: the White Mesa Mill in Utah, the Nichols Ranch in-situ recovery (“ISR”) Project in Wyoming, and the Alta Mesa ISR Project in Texas. The White Mesa Mill is the only conventional uranium mill operating in the U.S. today, has a licensed capacity of over 8

million pounds of U_3O_8 per year, has the ability to produce vanadium when market conditions warrant, as well as REE carbonate from various uranium-bearing ores. The Nichols Ranch ISR Project is on standby and has a licensed capacity of 2 million pounds of U_3O_8 per year. The Alta Mesa ISR Project is also on standby and has a licensed capacity of 1.5 million pounds of U_3O_8 per year. In addition to the above production facilities, Energy Fuels also has one of the largest NI 43-101 compliant uranium resource portfolios in the U.S. and several uranium and uranium/vanadium mining projects on standby and in various stages of permitting and development.
