

Trevor Doerksen of ePlay Digital on how free VR running app Klocked is getting users off the couch

written by InvestorNews | August 9, 2022

In this InvestorIntel interview with host Tracy Weslosky, [ePlay Digital Inc.](#)'s (CSE: EPY) CEO Trevor Doerksen talks about ePlay's award-winning, augmented reality running app, Klocked. ePlay is a mobile game creator and publisher specializing in sports and entertainment augmented reality (AR) titles.

In the interview, which can also be viewed in full on the InvestorIntel YouTube channel ([click here to access InvestorChannel.com](#)), Trevor talks about Klocked, a free, real-time, 3D, audio and video running fitness app. He explains how Klocked uses sports science, 3D visualization, and coaches to help athletes improve performance and enhance their fitness activities and motivate them to a new personal best. Klocked allows users to turn their usual run into an exciting virtual 3D experience in different cities all around the world, connecting Klocked to their treadmill and run as if they were outside. Trevor says with Klocked "you take a step in the real world and your avatar moves through the virtual world."

Trevor also emphasizes the importance of user feedback to continuous improvement of Klocked. "We've gone back to our first batch of 20,000 users and said: 'What are we getting right?' Trevor tells Tracy. "They're telling us exactly what we need to do to make it more real for them, to help them improve their performance and to help improve the product." With the 'hot runner market' projected to be worth over \$4 billion by 2026,

Trevor talks about Klocked's appeal to "couch to 5K" beginner or returning runners, as well as providing useful real-time peer data to runner mass participation events such as half and full marathons.

Award winning creator and publisher of mobile games puts

the 'e' on Play

written by InvestorNews | August 9, 2022

There is an emerging trend of using Augmented Reality (AR) or Virtual Reality (VR) to enhance the user experience, either in gaming or in entertainment. AR is an enhanced experience in the real world whereas VR is a virtual (digital) world experience.

According to [Fortune Business Insights](#), the global Augmented Reality market size was US\$ 2.82 billion in 2019 and is projected to reach US\$ 65.22 billion by 2027, exhibiting a **CAGR of 48.3%**. That's a very impressive **23x increase** over the 8 year forecast period.

Today's company is an award winning creator and publisher of games (including AR games) that can be used on your mobile phone.

[ePlay Digital Inc.](#) (CSE: EPY) ("ePlay") is a sports, eSports, and AR entertainment mobile games developer and publisher. ePlay has 10+ mobile sports, eSports, and entertainment games already released and several others readying for commercial release. They also have an AR fitness app called Klocked.

Some of ePlay's game titles include: [Howie Go Viral](#), [Outbreak ES](#), [Outbreak Unlimited](#), [Big Swish](#), [SwishAR ES](#), [SwishAR](#), [Big Shot Basketball](#), [Big Shot Swish](#), [Klocked Fitness app](#) and [Fan Freak](#).

Market opportunity

The market opportunity for ePlay is enormous. For example, ePlay operates in several markets including: eSports (US\$1.1 billion), mobile games (US\$120 billion), mobile advertising (US\$107 billion), sports advertising (US\$150 billion) and the US\$37.9 billion sports gaming markets.

Distribution and commercialization of ePlay's AR mobile games

The key method of distribution used by ePlay is having its games available on the Apple app store and the Android play store. ePlay also has a marketing and distribution deal with one of China's largest media conglomerates, with an audience of over [100 million](#) viewers.

Partners and investors include comedian, and America's Got Talent's, Howie Mandel, social media star and 7-time NBA champ, Robert Horry, and TV host and Sports broadcaster, Lindsay McCormick.

In September ePlay [announced](#) the launch of their Klocked Fitness app. By using AR the app makes exercise fun and engaging.

In some recent good news for ePlay, the Company [announced](#) that a major update of their Outbreak mobile game featuring Howie Mandel was approved for both the Apple and the Google Stores. Trevor Doerksen, CEO of ePlay Digital, stated: "We are seeking millions of players for the games we created with Howie Mandel and are well on our way with top rated titles like Outbreak."

ePlay [stated](#) in the news release:

“Outbreak is a part of a series of games developed by ePlay and created in partnership with Howie Mandel. [Howie’s Games](#) highlights just one of many successful partnerships between ePlay, athletes, celebrities and great brands. Others include Robert Horry, 7-time NBA champion with his mobile game [Big Shot Basketball](#) co-created and developed by ePlay. The [Klocked](#) partnership was announced earlier this summer with [Spartan Racing](#) and more announcements to follow.”

In further good news, ePlay [announced](#) on September 30 that Apple has approved ePlay’s Fan Freak app and ePlay wallet. Fan Freak is 3 games-in-one, all of which allow users to earn prizes and points. The three games included in the initial release include Fantasy, Pick-Sheet, and Streak. Games covered by Fan Freak include NHL, NFL, MLB, NBA, and NCAA football.

Closing remarks

ePlay is at a great stage now for investors to consider. This is because the hard work of game development and distribution has been done. Now comes the potential for large revenues if the games achieve popularity and monetization success.

Trading on a market cap of just [C\\$17.75 million](#) leaves ePlay Digital with plenty of potential upside ahead if ePlay’s revenues take off as commercialization of its games progresses in 2021 and beyond.
