

CEO of Wealth Minerals presents “Lithium for Growth” at #CTMS2017

In a recent presentation at **InvestorIntel’s** 6th Annual Cleantech & Technology Metals Summit (#CTMS2017), Tim McCutcheon, President of Wealth Minerals Ltd. (TSXV: WML) delivered a presentation titled, “Lithium for Growth”. Addressing industry and investors alike, Tim provides an overview of four of their Chilean salar projects: Atacama Salar Project, Laguna Verde Project, Trinity Project, and Five Salars Project. Tim highlights the potential of the Atacama Salar as it represents one third of global lithium production. Tim also discusses the advantages of having access to a local and experienced workforce by being based in Chile... to access the full presentation, [click here](#)
