

Alex Klenman on Azincourt Energy's high tech exploration program and the uranium bull market

written by InvestorNews | October 15, 2021

In a recent InvestorIntel interview, Tracy Weslosky spoke with Alex Klenman, President, CEO and Director of [Azincourt Energy Corp.](#) (TSXV: AAZ | OTCQB: AZURF) about the current uranium 'bull market' as Azincourt heads towards its biggest drill program to date at its East Preston Uranium Project in the Athabasca Basin.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), Alex said that the East Preston Uranium Project is strategically located near several high-grade uranium deposits. He continued by providing an update on Azincourt's [partnership with FOBI](#) to utilize artificial intelligence and data mining techniques on the project giving it a first-mover advantage in utilizing new technologies in uranium exploration. Alex also provided an update on Azincourt's recent private placements which saw participation from many institutional funds.

Fission's Ross McElroy on how “we are in the early stages of a uranium bull market”

written by InvestorNews | October 15, 2021

InvestorIntel's Tracy Weslosky spoke with Ross McElroy, President & CEO of [Fission Uranium Corp.](#) (TSX: FCU | OTCQX: FCUUF), about the uranium market and the competitive advantages of Fission's Triple R uranium deposit.

“We do think that we are in the early stages of a uranium bull market,” Ross said. “The longer we have increased demand, we will see restrictions in the supply, it will continue to drive the price of uranium up and there has been nothing but closures of uranium mines around the world.”

“The recognition is there that nuclear power is a clean energy,” Ross added. “Nuclear makes up over 15% of the United States' electrical needs and I think that will continue.” He further commented, “Fission Uranium has the world's best large, high-grade shallow deposit that is in Saskatchewan. Saskatchewan is recognized as one of the top jurisdictions worldwide for mining investment.”
