

Tom Drivas and Frederick Kozak on Appia Rare Earths & Uranium's best in class rare earths deposit and its prospective uranium property

written by InvestorNews | March 24, 2022

In a recent InvestorIntel interview, Tracy Weslosky spoke with Tom Drivas, CEO and Director, and Frederick Kozak, President of [Appia Rare Earths & Uranium Corp.](#) (CSE: API | OTCQB: APAAF) about how “Appia is part of the solution” to the current energy shortage and the global push towards electrification of vehicles.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), Tom Drivas provided [an update](#) on Appia's recently acquired contiguous uranium mineral claims in the Athabasca Basin which “has a lot of similarities to other known high-grade uranium deposits in the Athabasca Basin.” In the interview, Frederick Kozak highlighted the gap in the rare earths market given that “China still controls about 90% of the global rare earths industry and the demand for magnet rare earths expected to grow five times by 2030.” He went on to provide an update on Appia's Alces Lake Rare Earths Property and explained why it “looks to be one of the best rare earth discoveries in the world.”

[About Appia Rare Earths & Uranium Corp.](#)

Appia is a Canadian publicly listed company in the rare earth element and uranium sectors. The Company is currently focusing on delineating high-grade critical rare earth elements and gallium on the Alces Lake property, as well as exploring for high-grade uranium in the prolific Athabasca Basin on its Otherside, Loranger, North Wollaston, and Eastside properties. The Company holds the surface rights to exploration for 105,026 hectares (259,525 acres) in Saskatchewan. The Company also has a 100% interest in 12,545 hectares (31,000 acres), with rare earth element and uranium deposits over five mineralized zones in the Elliot Lake Camp, Ontario.
