

The Mint's Vishy Karamadam on bringing health insurance to the underbanked.

written by InvestorNews | August 23, 2018

"Within the UAE the segment which we are going after, is the blue-collar migrant worker segment. UAE has passed legislation which has made it mandatory for all these migrant workers to have health insurance. This has presented Mint with a unique opportunity given that we have an existing customer base of 400,000 clients, and over 800 corporate clients. The legislative mandate in UAE is excellent for the insurance sector." states Vishy Karamadam, Chairman and CEO of [The Mint Corporation](#) (TSXV: MIT), in an interview with InvestorIntel Corp. CEO Tracy Weslosky.

Tracy Weslosky: Your [news](#) that you just put out on the insurance brokerage industry to the underbanked is fascinating to me. Can you tell us a bit more about it?

Vishy Karamadam: Yes. Mint is currently servicing the underbanked segment within the United Arab Emirates. Our main office is in Dubai. Within the UAE the segment which we are going after, is the blue-collar migrant worker segment. UAE has passed legislation which has made it mandatory for all these migrant workers to have health insurance. This has presented Mint with a unique opportunity given that we have an existing customer base of 400,000 clients, and over 800 corporate clients. The legislative mandate in UAE is excellent for the insurance sector. This has presented for Mint a very low-hanging fruit opportunity. To address this opportunity we needed to go and get a license to become an insurance broker. Mint has already got the provisional approval. We have a team in place

and we are working through the last remaining steps to get the full approval, which will allow Mint to offer insurance as a bundled product along with our payroll.

Tracy Weslosky: What should we expect from the Mint Corporation here this next quarter as we drive into fall?

Vishy Karamadam: Mint is actually in a very exciting time. We are at an inflection point. We have a number of major initiatives which are at the cusp of getting launched, the most important being the launch of our mobile wallet application. We are finishing up the processes with the Central Bank to launch that mobile wallet application, which in turn will allow all our 400,000 customers, whom we have today, access a variety of financial services products using the Mint mobile application. That is a huge step forward in the evolution of Mint, couple that with the Mint insurance brokerage, which we talked about, we are finishing up the last stages of the physical office reconfiguration, which is a must for the insurance license and all those last steps to become a fully licensed insurance broker. This is an exciting time for Mint and a lot of great things are coming up...to access the complete interview, [click here](#)

Mint Corporation's CEO on

servicing the needs of the underbanked globally

written by InvestorNews | August 23, 2018

June 20, 2018 – “The underbanked market globally is a \$2 billion plus market. We as Canadians are used to having bank accounts, but that is not the case in a number of parts of the world. Having access to financial services is the stepping stone for improving the quality of life for a vast majority of the people. You need a different business model with a different technology platform to go after this market and that is what we have built.” states Vishy Karamadam, Chairman and CEO of [The Mint Corporation](#) (TSXV: MIT), in an interview with InvestorIntel Corp. CEO Tracy Weslosky.

Tracy Weslosky: I am going to get right into it because I have never seen a company achieve so many significant milestones ever in so short a period. Let us start with, who is The Mint Corporation? Just give us a bit of an overview.

Vishy Karamadam: Mint is a globally certified payments platform company. We have built a fully certified PCI compliant, which is the industry standard, payments platform capable to issue Mastercard and China Union Pay, the world’s leading global brands. We have built a mobile payment infrastructure connected to our payments platform to service the needs of the underbanked globally.

Tracy Weslosky: Okay, servicing the needs of the underbanked globally. Honestly have not seen anything like this on the Toronto Stock Exchange. Very interesting so back me up, how big is this market?

Vishy Karamadam: The underbanked market globally is a \$2 billion

plus market. We as Canadians are used to having bank accounts, but that is not the case in a number of parts of the world. Having access to financial services is the stepping stone for improving the quality of life for a vast majority of the people. You need a different business model with a different technology platform to go after this market and that is what we have built...to access the complete interview, [click here](#)
